

MANSDORF BPM'S SUNSET DIPLOMAT

Board of Podiatric Medicine **President Neil B. Mansdorf, DPM** chaired a meeting of the State licensing agency in LA City Hall July 20. OCPMA President Devon Glazer, DPM attended as the official CPMA liaison.

Dr. Glazer participated in discussions about the Medical Board's physician discipline system, BPM's need for a renewal fee increase, and amendments the Department of Consumer Affairs is proposing to BPM's Sunset extension bill SB 1236.

DCA is questioning SB 1236's removal of the four-year cap on post-graduate training with a Resident's License, as well as the bill's language attempting to rein in unlicensed diagnosis and prescriptions (unlicensed practice of medicine). The Board unanimously passed a Mansdorf motion to support SB 1236 (Price) as currently written.

Doctors Glazer & Mansdorf July 20

BPM has been a staunch supporter of the Department and hopes to keep DCA onboard Senator Curren Price's bill that extends the Board another four years past January 1.

Dr. Mansdorf, CPMA President Dr. Karen L. Wrubel, and BPM Executive Officer Jim Rathlesberger teleconferenced with the DCA Deputy Director for Legislation July 13. They will be conferring with Chairman Price's Senate Business, Professions and Economic Development Committee staff upon their return from the legislative recess August 6.
